

“Our open unit for the daily maintenance of your pitch”

The LED60 open is an open unit for the daily maintenance of your pitch. The unit is easy to deploy on areas up to 197ft². When used in pairs it will treat an area of 427ft².

The combination of light, heat, H₂O (the essentials for photosynthesis) enhancement along with new sound technology can produce 10 mm of grass growth in twenty-four hours.

*The world's first open
LED bespoke grass
growing technology using
SeeGrow's DayLight
system along with Parxtra
Sound boosters*

Formulated for maintaining warm season grasses and biased for rooting

Reduces your Eco Footprint by 200% compared to nearest competition

Lightweight & easily deployable

SIZE	38ft 5in (l) x 7ft 6in (w) 5ft 7in (h) (rigid frame)
POWER	415 V 3 Phase N + E
WEIGHT	Approx. 1280 lbs
LIGHTS	28 Bespoke SeeGrow LED Daylight lighting system capable of spectrum change to enable targeted root growth
GROWING AIDS	Lights boosted by SeeGrows Patented ParXtra Sound modules x 2
OUTPUT	28 x 300 W – 8400 watts only Heat when used 35% of the time 4200 watts -Total 12600 watts
WHEELS	4 x Turf wheels and tyres
RUNNING COSTS	kWh cost (£ \$ €) 28.98 per day in the winter (£ \$ €) 19.32 In the summer Using 0.10 (€ £ \$) as the kW price
ELECTRICAL PANEL	IP65
TEMPERATURE	Controlled by the PLC
HEATING	8 x SeeGrow bespoke spectrum IR 1.5 kW Heating devices
IRRIGATION	Optional feature retrofittable
CONNECTION	4G for remote service connection & local WIFI connection
CABLE	328ft power supply cable
TRANSPORT	Easily transportable by 2 persons
